

MiVoice 6930 IP Phone

The **MiVoice 6930 IP Phone** commands the desktop with its large 4.3" color display, powerful crystal-clear HD audio through the voice optimized handset, programmable personal keys, Bluetooth 4.1 with Mobile Integration, mobile phone USB charging point and choice of expansion modules makes the 6930 the choice of power users.

Softkeys:

Transferring a Call:

- During a call, press the **Xfer** softkey. This places the active caller on hold.
- Enter the recipient's number (*extension or phone#*)

Blind Transfer — Press the **Xfer** softkey again or hang up the handset to complete transfer.

Attended Transfer — Wait for an answer, consult, and then press the **Xfer** softkey or hang up the handset to complete an attended transfer.

Forwarding Calls:

- Press the  icon on desk phone to access your **Settings**.
- Select **Call Forward** from menu options.

Use your Navigation Pad to cycle through and select windows.

Enter the number you would like calls forwarded to.

(If you want different numbers to forward calls when you **MISS** or are **BUSY** on phone, enter in fields below **ALL**.)

A screenshot of the 'Call Forward' settings screen. It has a dark blue header with the title 'Call Forward'. Below the header are three sections: 'All' with a text input field containing '2038528800', 'Busy' with a 'Number' field, and 'No Answer' with a 'Number' field. To the right of these fields is a 'No. Rings' field with the value '1'. At the bottom right is an 'On' toggle switch. At the bottom are four buttons: 'Save', 'Backspace', 'CopyToAll', and 'Cancel'.

Activate "**ON**"

Select how many times you want desk phone to ring before it forwards call.

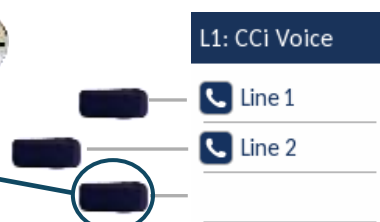

Select "**SAVE**" softkey to activate call forwarding.

Setting External Contact Speed Dials:

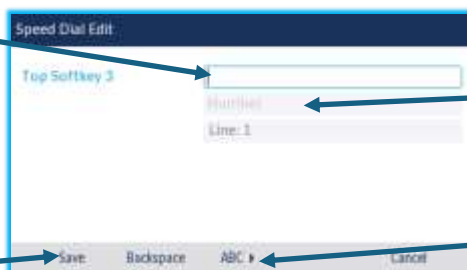

Use your Navigation Pad to cycle through and select windows.

On desk phone's home screen, long press an unassigned *Rapid Dial* Key for (4) seconds.

Using the phone's Keypad, enter the **name** of the contact.

A screenshot of the 'Speed Dial Edit' screen. It has a dark blue header with the title 'Speed Dial Edit'. Below the header is a text input field for the contact name. Below that is a 'Number' field and a 'Line: 1' field. At the bottom are four buttons: 'Save', 'Backspace', 'ABC', and 'Cancel'.

Enter the Contact's phone number.

Select **SAVE** then **DONE** to save Speed Dial to phone.

Toggle between CAP, lowercase, and #s.
